

NETWORK OF EMPLOYERS FOR TRAFFIC SAFETY

The Network of Employers for Traffic Safety is an employer-led public/private partnership dedicated to improving the safety and health of employees, their families, and members of the communities in which they live and work by preventing traffic crashes that occur both on and off the job. NETS believes safety belts are the best defense against the risky driving behaviors on our roadways and are the most effective means of reducing injuries and fatalities in a crash. To safeguard America's workforce, NETS develops and promotes corporate safety belt programs for all places of business. Employers have a crucial role to play in increasing safety belt use to safeguard employees – their most valuable asset. Our message to America's workers: "Please buckle up. We need employees like you." For more information, visit www.trafficsafety.org
